The Countryman fan-forced is now available from Jarrahdale Heating. Boasting our largest firebox yet, this impressive freestanding wood heater offers maximum heat output, warming up to 280sq/m. The Countryman also features a large door opening for easy loading of larger logs while offering cosy views of the fire from its oversized glass viewing pane.

The Countryman is the perfect wood heater for a large residence, open-plan living areas and homes featuring high ceilings or a mezzanine floor.
